Professional Experience

(2021-2022)

SOFTWARE TESTER

TURIAN LABS, India

Working as a Software Tester at Turian Labs has been an enriching experience. I excel in creating detailed test cases, identifying critical bugs, and ensuring high-quality software delivery. My skills in automation testing, attention to detail, and effective communication have contributed to successful project launches. I thrive in a collaborative environment, ensuring products meet and exceed user expectations.

(2023-2024)

AI EVALUATOR

Serving as an AI Evaluator for college academics over the past year has been a rewarding journey. I specialized in assessing AI models, ensuring their accuracy, relevance, and ethical use in educational settings. My strong analytical skills, problem-solving abilities, and attention to detail have helped optimize AI applications for student learning.
